**Elements International Group, LLC Celebrates Grand Opening of  
Domestic Mattress & Upholstery Manufacturing Facility**

**Mesquite, Texas - July 16, 2021** – Elements International Group, LLC, wholesale furniture company, celebrated the grand opening of its Elements Sleep, domestic mattresses, and Style-Line Furniture, domestic upholstery, manufacturing facility in Mesquite, Texas this week.

The grand opening event was attended by Elements’ executive team along with over 200 employees and employee family members. Prior to the grand opening event, the production of both mattress and upholstered goods had commenced along with private customer tours of the facility and showroom.

The newly constructed 177,564 square foot manufacturing facility is located 5.1 miles from Elements’ primary North America headquarters and distribution center at 1475 Republic Parkway, Mesquite Texas, and features an open concept office space, product showroom, and state of the art manufacturing machinery.

Elements’ newest brand, Elements Sleep, launched in the fourth quarter of 2020 and its inaugural program, Simple Sleep, has been received extremely well by customers. President of Elements Sleep, Josh Micklos, stated, “We have been working really hard to get this plant up and running, and we are extremely proud of what we have here. We’re confident that this facility, our innovative product assortment, and our superior technology will fill a gap that continues to grow in the bedding industry.”

In addition to this facility being the primary production plant for Elements Sleep, it will also house two production lines of Elements’ 2019 acquired brand, Style-Line Furniture, that primarily operates out of a 350,00 square foot manufacturing facility in Verona, Mississippi. Mike Wurster, Elements President, commented, “We’ve assembled a fantastic team to launch this new facility and are eager and excited for the potential this facility has to contribute to Elements overall business. Domestic goods are in high demand, and our ability to mix the Elements Sleep and Style-Line goods with our import products inventoried in our Elements warehouse just up the road is going to make us even more capable of supporting our customers.”
