Thayer Coggin Introduces its Artful, Mona Lounge Chair at Spring 2023 High Point Furniture Market

HIGH POINT – Thayer Coggin furniture is pleased to announce the introduction of the Mona lounge chair at the Spring 2023 High Point Furniture Market. Designed by renowned designer, Rick Lee, the Mona lounge chair is defined by a soft, biomorphic shape that hugs for an unparalleled lounging experience.

With ahead-of-the-curve, sculptural upholstery nestled onto a sleek metal or wood base, the Mona lounge chair personifies an endearing character.

“Symbolically, the base functions like an easel to showcase its artwork, or is she revealing the intricate braces behind her enigmatic smile,” said designer Rick Lee.

However you imagine it, the Mona lounge chair is inviting from all angles with a striking, modern form. Mona is a true comfort to the eyes and body with luxurious seating and back support that will put a smile on your face.

The Mona lounge chair is available in a variety of fabrics and leathers and can be customized to match any décor.

An innovator at the vanguard of modern design, Rick Lee combines rational thinking with radical influences to create

minimalist pieces with deft whimsical touches. Lee considers “California Cuisine” an apt metaphor for this work – a mix of seemingly incongruent ingredients carefully combined to create something new and fresh.

“Rick Lee challenges design, creating everyday items that make you smile,” said Pilar Viladas of *The New York Times*.

The Mona lounge chair will be on display at the Thayer Coggin showroom at the Spring 2023 High Point Furniture Market.

About Thayer Coggin

Entering into business in 1953, Thayer Coggin helped pioneer and bring modern furniture designs to American homes. Over the years, Thayer Coggin has amassed a collection of some of the most iconic furniture designs in the world. Thayer Coggin handcrafts its furniture in its workshops in High Point, North Carolina. The company’s furniture is sold via nationwide retailers and locally owned and operated stores across the United States, Canada and Europe.
