**FOR IMMEDIATE RELEASE**

## **BDI Offers Striking New Black Finish on Align Media + Storage Collection**

*The Align series brings elegance and versatility to performance-driven consoles*

CHANTILLY, VA — April 23, 2023 — Premier home and office furniture manufacturer **BDI** announces the addition of a striking new black finish on its [Align console and media cabinet collection](#). Designed by Matthew Weatherly, the Align series offers three cabinet sizes, two base options and two finish options, including Satin White and the new Ebonized Ash, to provide versatility as well as elegance to any space in the home.

The Align console collection is designed from the inside out, allowing for the seamless integration of technology for home entertainment and general storage use. Performance features include a soundbar shelf; additional adjustable shelves; remote and audio-friendly soft close doors; full flow-through ventilation and acoustic dispersion; hidden wheels and adjustable levelers; and removable rear-access panels as well as BDI's signature cable-management system. All units also include a TV safety strap to prevent accidental TV tip-overs.

Align's standout feature is its stunning louvered doors. Crafted from top-quality solid wood, the linear design keeps electronics like DVD players, gaming consoles, and speakers out of sight while allowing for clear sound dispersal and accessibility by remote control.

Its two base options include an elegant console base or a lower-profile media base, the latter of which includes hidden wheels. Adjustable levelers are available on both bases and help account for any uneven flooring. The full collection consists of the following models:

[Align™ 7473](#) – A low-profile, four-compartment media cabinet design with built-in soundbar shelf

[Align™ 7477](#) – A three-door cabinet design featuring a unique center drawer with a full-width soundbar shelf

[Align™ 7479](#) – A sleek standard-height four-compartment media cabinet with built-in soundbar shelf

“Align is designed to bring a beautiful timelessness to media storage and display,” says Weatherly. “With smart electronics becoming increasingly prevalent, it’s important that the furniture designs used to house them are able to facilitate their full functionality, while looking good doing it.”

In addition to the new Ebonized Ash finish, the Align collection is also available in Satin White and is sold in retail stores nationwide.

#### **About BDI:**
