FOR IMMEDIATE RELEASE

BDI Expands Corridor Collection with New Storage Options *Award-Winning Collection Offers Two Sizes for Versatile Storage Needs*

CHANTILLY, Va. — April 15, 2024 — **BDI**, a premier furniture designer and manufacturer of modern home, office, bedroom, and entertainment solutions, is adding new storage cabinet designs to its award-winning Corridor Collection. Designed by Matthew Weatherly, Corridor Storage will be shown at the April High Point Market in BDI's showroom, IHFC Design Center, #724.

The new Corridor Storage designs are available in a four-door and two-door cabinet, and in Corridor's three finish options. Ideal for storing away a multitude of personal items, or for creating a storage wall unit, Corridor Storage exudes a beautiful aesthetic while offering a variety of functional features inside. The two models include:

Corridor Storage 8109 is a four-door credenza design that measures 30”H x 79.25”W x 18”D, and includes two adjustable shelves along with two adjustable utility drawers. The generous interior spaces can accommodate 6-8 components inside.

Corridor Storage 8108 is a two-door design that measures 30”H x 39.5”W x 18”D, and includes one adjustable shelf and an adjustable utility drawer. The slim design allows for storage of 1-2 components inside, along with numerous items within the pull-out drawer.

Both models boast Corridor’s signature soft-close, louvered door design and satin-etched glasstop surface. The units also include wire management openings for plugged devices, while an internal leveling system helps account for uneven flooring.

Designed for flexibility, the adjustable utility shelves can be placed at the top or bottom of the cabinets, serving as either a storage drawer or pull-out bottom tray for easy to reach items. The 8109 and 8108 are also designed to be placed together for use as a full wall storage system.

Both models are available in Corridor’s Natural Walnut, Chocolate-Stained Walnut and Charcoal-Stained Ash finishes, making it ideal for any space. Corridor Storage be available for shipping in Q2 2024.
