## **Oblique**

Matthew Hilton

**Oblique, a collection that blends elegant simplicity with sober graphics and powdered colors.**

The Oblique collection, designed by British creator Matthew Hilton, captures the most contemporary conceptualization of the tradition of overlaying rugs. This proposal is achieved through the juxtaposition of oblique figures, resulting in a contrivance of monochromatic volumes.

The design, determined by two, clearly differentiated planes, was obtained through a combination of techniques and generation of textures. This subtle rug uses geometrical finesse to add volume to its surroundings.

Oblique is an elegant, minimalist collection that fits easily into any space. Its soft tones make this an unassuming collection that nevertheless contributes movement and volume through the two techniques used: hand-knotted and sumak weave. The movement is supplied by two overlapping pieces that, depending on their arrangement in the space, can complement very different furniture layouts.

This time around, color remains an important element of the design, but the chosen palette is of warm, powdery tones, including pink, beige, earth and ochre; very earthy colors that naturally harmonize, creating bright, fresh and contemporary spaces.

Available in 4 sizes and colours: Ivory, amber, obsidian and pink quartz.

IVORY	AMBER	OBSIDIAN	PINK QUARTZ
			

Technique: Hand knotted  
 Type: Persian knot + Sumak  
 Density : 49.600 yarns/m2  
 Fiber : 100% Hand Spun Afghan Wool  
 Total heigh: 29 mm

### About Matthew Hilton

Born and raised on the south coast of Hastings, England, Hilton always gravitated towards architecture, design, and painting. These influences are evident in each piece Matthew Hilton

furniture produced out of his London-based studio, known for creating rigorously functional products from a range of exceptional materials such as solid hardwood, cast iron, and brass. A typical Matthew Hilton design is fluid and adaptable; seamlessly combining functionality and style.

### **About nanimarquina**

nanimarquina was founded by Nani in 1987 with a singular wish: “I wanted to design rugs that were visually amazing, that people would enjoy.” Constantly seeking innovative use of techniques and materials, nanimarquina is a pioneering family business, designing and making highly individual, contemporary rugs. While the company is based in Barcelona and New York, all manufacturing takes place in India and Pakistan, revealing the limitless possibilities of the artisans. The company collaborates with renowned national and international designers to guarantee the diversity of styles and experimentation with textures, materials and shapes the company has become known for. The result is a unique nanimarquina rug for each person, for each space, for each emotion.
