**Harbour Returns to High Point with Reimagined Offerings Headed into the New Year**

*The Luxury outdoor lifestyle brand returns to High Point this Fall to debut new styles and colorways within its bestselling collections.*

**Los Angeles, California** (August 2025) - Harbour, the leader in luxury outdoor furniture, is excited to announce its return to High Point Market this fall. Harbour will unveil reimagined offerings across its bestselling collections, introducing new styles, refined colorways, and elevated finishes that build on Harbour's signature design language.

With an increased focus on customization, the updated collection features 37 textiles in an expanded range of premium materials and fabrics, created in partnership with Sunbrella. Harbour will also host an exclusive event on the afternoon of Friday, October 24, at its showroom within the 313 Space, bringing the design community together to celebrate the launch and highlight the impact of this dynamic collaboration.

**About Harbour:**

Founded in 1976 by Jim Condos in Sydney, Harbour began as a family workshop rooted in metal craftsmanship and furniture construction. Now led by co-founders Nicholas and Harrison Condos, the brand blends traditional techniques with a modern Australian coastal aesthetic. Inspired by their father's legacy and their own passion for design and architecture, the brothers transformed Tecno Furniture into Harbour. By keeping design and manufacturing in-house, Harbour creates pieces that embody a sleek, contemporary coastal look, emphasizing comfort, deep seating, and a low profile, much like the country's iconic beach houses that harmonize with the rugged coastline.

With showrooms across the US, Australia, and Asia, Harbour specializes in residential and hospitality applications, with furniture specified in some of the most acclaimed projects worldwide. The brand offers a comprehensive Trade Program featuring exclusive pricing, concierge service, quick-ship options, and custom capabilities, supported by a dedicated Contract & Hospitality team.
