**"Copeland Furniture to Launch Media Consoles and New Sit-Stand Desk at High Point Market"**

*"Vermont Manufacturer Expands Offerings in Underserved Product Categories"*

**High Point, NC (October 6, 2025)** - Copeland Furniture focuses on functional elegance for October High Point Market. New introductions, including five highly customizable media console collections, the ergonomic Odin Sit-Stand Desk, and additions to top selling collections reaffirm the brand's commitment to sustainable, domestic manufacturing and design excellence.

**Media Consoles:**

A new product category, Media & Storage, fills an important void in Copeland's lineup. "For years retailers have been asking us to look seriously at the category, citing a need for a credible assortment of contemporary media cases in solid wood," said Ben Copeland. "With the addition of Jake Hanson to our design and creative team, we decided it was time to give the category the attention it deserves."

This introduction features 40 different configurations:

- Styles: Exeter, Catalina, Moduluxe, Mansfield and Wall Mounted configurations
- Sizes: 66" or 79" wide configurations in two heights.
- Finishes: Natural Walnut or Cherry in five finishes.
- Functionality: Soft close doors or uniquely engineered coplanar sliding doors with integrated soundbar compartments.

"Media is the focal point of any home, so it was important for us to ensure the user experience guided these designs. The uniquely engineered sliding doors provide a movement we are especially proud of" states product designer and engineer Jake Hanson.

## Odin Sit-Stand Desk:

Copeland Furniture once again partners with designer Marc Boudreau on a new sit-stand desk collection, Odin. “Odin was born from a desire to create a practical and timeless work desk, one where the strength and natural beauty of wood is brought to the forefront. Its clean, assertive lines recall a Scandinavian influence and are balanced by the subtle rounded details that soften the overall design” states designer Marc Boudreau. The new Odin Collection expands Copeland’s diverse home office category with a range of features and options:

- Sizes: 30” x 60” or 30” x 72” desk-tops.
- Finishes: Natural Walnut or Cherry in five finishes.
- Customization: White or Black leg options with the choice of wooden leg covers and a storage drawer.

## Expanding Current Collections:

Marc Boudreau adds to the April 2025 introduction Baton Collection with the new Baton Dining Chair. “The Baton Dining Chair is a functional piece, free of elaborate ornamentation, that is designed to integrate naturally in diverse environments.” he describes.

The Estelle Lounge chair sees an expansion into Cherry with five available finishes. The Catalina Dining Collection sees an introduction of space saving drop leaf tables, available in Natural Walnut or Cherry in five finishes..

Copeland Furniture welcomes buyers and designers to experience these new collections firsthand at High Point Market, Showplace (Suite 5100, Floor 5) from October 25 to October 29, 2025. You can view Copeland Furniture’s current collections online at [copelandfurniture.com](https://www.copelandfurniture.com).

## About Copeland Furniture:

Copeland Furniture started in the 1970s as a family-owned and operated enterprise. Its mission is to create beautiful wood products from natural hardwoods while protecting the beauty of nature. During its many periods of growth, it has evolved from a one-man operation in an old garage in East Corinth, Vermont, to a state-of-the-art manufacturing facility located on the banks of the Connecticut River in Bradford, Vermont. More than four decades later, Copeland Furniture has stayed true to its creed and places high value on quality furniture that lasts multiple generations. It believes that understated, well-designed structures inform our creative sensibilities each day, and continuous improvement allows its company to thrive and excel.
