

**FOR IMMEDIATE RELEASE**

**Moe's Home Unveils Fall/Winter 2025 Collection:**  
*Decades of Expertise, Design Redefined*

Vancouver, BC (October 22, 2025) — This Fall/Winter 2025, [Moe's Home](#) ushers in a bold new chapter of **modern design where heritage craftsmanship meets forward-thinking creativity**. The FW25 Collection, debuting with over 300 new introductions, invites designers and retailers to explore sculptural silhouettes, tactile materials, and elevated essentials that celebrate the art of modern living.

At the core of this season's debut are collaborations with celebrated design studios that bring fresh global perspectives to the brand's design language.

- **Says Who**, the Copenhagen-based studio known for its Nordic clarity, lends refined simplicity to seating and dining through pieces like the flowing Naomi Modular Sofa and the relaxed yet elevated Savanna Outdoor Lounge Chair.
- **Also Also Studio**, from Vancouver, infuses playfulness and precision with the Elise Dining Chair and Lillian Cabinet, blending heirloom-inspired details with contemporary craftsmanship.
- Montreal's **Mitz Takahashi** and the experimental team at Untitled Agency round out the narrative, expanding Moe's dialogue between art, form, and functionality.

*The new Lillian Cabinet by Also Also Studio designed for Moe's Home*

The collection is anchored in Moe's evolving connection with the design community, embodied in its "Modern Heirloom" theme—a reimagining of nostalgia through the lens of innovation. Reflected throughout the assortment are the following narratives:

- **Timeless Traditions:** Honoring craftsmanship and classic details with a modern sensibility. Familiar yet fresh pieces that bring warmth and tranquility.
- **Say It in Stone:** Sculptural forms and expressive marbles in rich, natural tones — statement-making yet versatile.
- **Ahead of the Curve:** Soft, flowing shapes that add comfort, approachability, and movement to any space.
- **The Art of Modern:** Confident, contemporary designs that reflect today's bold, design-led point of view.
