

RAIL

INSPIRATION & OVERVIEW

The very name suggests a journey - lines stretching out, converging at a distant point in front and behind. To the future, and to the past. Connecting experiences had and those yet to come. Rail speaks of tradition and an age of exploration. But also of opulent travel and horizons to be crossed. Rail is timeless. Iconic.

Realised by Gloster's internal design house, the Rail dining table is all of this and more. Drawing on Gloster's rich history of teak furniture manufacture, the table's frame is beautifully crafted from individually selected, hand finished, sustainably sourced teak. Gentle radii set the frame apart from traditionally square section profiles and cleverly hidden fastenings ensure Rail's simple, sturdy frame effortlessly supports an elegant and durable ceramic top.

Rail's confidently understated form and peerless engineering promise timeless popularity while perfectly paired materials pledge enduring service. Designed to be a centre piece and stylish companion to any combination of Gloster's dining chairs, the Rail Dining Tables, available in either 94.5" or 114" length, represent the understated mastery of design and craftsmanship that Gloster has become known for.

Tim Cook, Product Development Manager at Gloster says; "We typically work with some of the best furniture designers in the world and we are constantly inspired and challenged by these collaborations, however sometimes a need is so clear, so defined it needs nothing more than for our skilled crafts people to be allowed to embrace their years of experience and deliver a simply perfect solution."

ABOUT GLOSTER

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
