Tables Worth Gathering Around

Once reserved for folding tables and occasional game nights, mahjong is finding a more permanent place in the home and in the way people gather.

RW Collective's Mahjong Table Collection introduces seven distinct interpretations of the modern game table. From upholstered playing surfaces and tailored storage to classical carving and sculptural pedestals, each piece is designed to feel as considered between game nights as it is during play.

Created for living rooms, sunrooms, libraries, breakfast areas, and other welcoming spaces, the collection brings furniture-level design to one of the home's most enduring social rituals.

"We wanted these tables to feel like more than a place to play. They are beautiful, functional pieces designed to make people want to come back for another round."
