

BLANCO Showcases Design-Led Innovation at High Point Fall Market 2026

Featuring the award-winning OOVALON / LUNEOO UNIT, Red Dot-winning BLANCOCULINA II faucet, and Silgranit® LIVEN laundry sink

LUMBERTON, NJ – October 2026 – As BLANCO enters its second century of innovation, the premium kitchen solutions brand continues to redefine the water place with a portfolio of products that blend exceptional performance, award-winning design, and elevated everyday living. At High Point Fall Market 2026, BLANCO will showcase three standout innovations: Award-winning OOVALON / LUNEOO UNIT, the Red Dot Award-winning BLANCOCULINA II faucet, and the versatile LIVEN laundry sink crafted from BLANCO's signature Silgranit® material. Together, these products demonstrate BLANCO's commitment to creating beautiful, functional solutions that seamlessly connect kitchen, utility, and living spaces. The presentation also offers an early look at the design philosophy and innovation roadmap that will come to life in BLANCO's KBIS 2027 exhibit, where BLANCO will further showcase the future of the water place through immersive product experiences and category-defining design.

Sculptural Design Meets Functional Innovation

At the center of BLANCO's High Point presentation is the revolutionary **OOVALON / LUNEOO UNIT**, recognized by KBB Awards, Red Dot: Best of the Best, German Design Award, and iF Design Award for outstanding product design. Inspired by the art of lighting, the LUNEOO faucet transforms a functional kitchen fixture into a sculptural focal point. Its refined cylindrical form is complemented by a separate countertop-mounted electronic dial that intuitively controls water volume and temperature, while a 360-degree swivel and pull-down dual-spray functionality deliver exceptional versatility for today's multitasking kitchens.

The perfect complement to the faucet, the OOVALON sink introduces a fresh design language through its distinctive oval silhouette and chamfered detailing. Crafted from BLANCO's new patented Velgranit® material, OOVALON offers a uniquely smooth, velvety texture inspired by stone shaped by flowing water. The sink's advanced fine-granite composition enables bold, expressive forms while maintaining exceptional durability, scratch resistance, stain resistance, heat resistance, and easy maintenance.

Together, these elements form the **OOVALON / LUNEEO UNIT**, a fresh and unexpected concept that brings a new era of design expression to the kitchen while maintaining the practicality and performance homeowners expect from BLANCO. As one of the defining concepts shaping BLANCO's next chapter, **OOVALON / LUNEEO** also serves as **a preview of the design language and user experience that visitors can expect to see expanded throughout the brand's KBIS 2027 booth**. Available in premium designer finishes and complemented by thoughtful accessories, the collection embodies BLANCO's century-long commitment to engineering excellence and innovation.

Red Dot Award-Winning BLANCOCULINA II

Also on display in the laundry section of the NKBA / Broad Hall installation, there will be the **BLANCOCULINA II faucet**, winner of the prestigious Red Dot Design Award 2025. A successful evolution of one of BLANCO's most celebrated faucet designs, BLANCOCULINA II combines professional-grade performance with contemporary aesthetics.

Sophisticated details, including dark inlays and a sleek magnetic spray holder, give the faucet a distinctive modern character. Select models feature integrated sensor technology for touch-free operation, adding convenience and hygiene to everyday kitchen tasks. Recognizing its innovation and refined execution, the Red Dot jury noted, *"With its intuitive sensor control, BLANCOCULINA II makes everyday life easier. With its elegant and precise design, the faucet enriches any kitchen."*

Extending SILGRANIT® Performance Beyond the Kitchen

Demonstrating that beautiful design is not limited to the kitchen, BLANCO will also feature the **LIVEN laundry sink**, bringing the proven benefits of Silgranit® into utility and laundry spaces.

Proudly made in Canada, LIVEN is crafted from BLANCO's premium granite composite material, Silgranit®, renowned for its durability, resilience, and easy-care performance. The material is engineered to withstand heavy cookware, hot bakeware, and everyday impacts while resisting scuffs and scratches. Its non-porous, food-safe surface helps protect against bacteria and is exceptionally easy to clean.

Designed with a generous 12-inch bowl depth, the LIVEN laundry sink easily handles demanding household tasks, from hand-washing delicate garments and pre-treating stains to rinsing muddy boots and cleaning oversized utility items. Versatile undermount and drop-in installation options, along with a rear-positioned drain that maximizes usable bowl space and cabinet storage, make LIVEN a practical solution for today's hardworking homes.

Available in a palette of nature-inspired Silgranit®, colors, the LIVEN collection allows homeowners and designers to create a cohesive aesthetic across kitchen, bar, and laundry spaces while enjoying the lasting performance and beauty of BLANCO's signature material.

Blanco Liven 25" Dual Mount Single Basin Silgranit Laundry Sink

"At BLANCO, we believe exceptional design should enhance every interaction with water throughout the home," said **Edyta Drutis, Vice President of Brand Marketing, BLANCO North America**. "OOVALON and LUNEOO represent more than individual product innovations. They offer a glimpse into the future direction of our brand and the immersive design experience we are developing for KBIS 2027. Whether it's the sculptural innovation of OOVALON and LUNEOO, the award-winning functionality of BLANCOCULINA II, or the durable performance of our SILGRANIT LIVEN laundry sink, each product reflects our commitment to creating meaningful experiences through thoughtful design and engineering."

Looking Ahead to KBIS 2027

The OOVALON / LUNEOO UNIT represents the next evolution of BLANCO's design vision and serves as an early preview of the innovation and elevated user experiences planned for the brand's KBIS 2027 exhibit. Building on the momentum of its award-winning portfolio, BLANCO will continue to explore new ways to connect design, functionality, and emotion at the water place.

ABOUT BLANCO

BLANCO stands for the kitchen water place in residential households since 1925. As an internationally established premium supplier with German roots, the company develops and manufactures products that impress with their award-winning design, high-quality materials and customized design options. At the heart of the portfolio is the modular BLANCO UNIT, which seamlessly combines kitchen sinks, faucets, and water filtration as well as organization systems for the base cabinet as system components in form and function. BLANCO's drive: more convenience, flexibility and enjoyment in the daily use of the residential kitchen water area. Over 1,400 dedicated employees worldwide are committed to the brand. Headquartered in Oberderdingen, Germany, as well as in the national locations in Europe, North America, Asia and Australia, BLANCO America and BLANCO Canada have proudly served the North American market for over 35 years.
