

AMITY HOME EXPANDS ITS FLOOR TO CEILING TEXTILE STORY

Bedding, rugs, throws, accent pillows and customizable curtains give designers a cohesive resource for the entire room

Amity Home continues to expand its vision beyond the bed, offering designers a comprehensive textile resource that reaches from floor to ceiling. With coordinated collections spanning **bedding, area rugs, throws, accent pillows and curtains**, the brand makes it easier to build layered, collected interiors through a single trusted source.

Long known for bedding that balances natural materials, rich texture and thoughtful detail, Amity Home has grown its assortment to address the full room. Rugs establish the foundation. Bedding brings softness and dimension. Throws and accent pillows add the finishing layers, while curtains carry the textile story vertically, framing the room and completing the space.

The breadth of the assortment gives designers the freedom to create rooms that feel intentionally layered rather than overly coordinated. Pattern, texture and material can move throughout the space, allowing each element to stand on its own while contributing to a cohesive point of view.

STOCKED AND READY, WITH MORE POSSIBILITIES

A broad selection of Amity Home bedding and accents is **stocked for quick ship**, giving designers access to beautiful textiles without the extended lead times often associated with custom work. For select heavy hitters, **special order options expand the possibilities**, offering additional choices while building on proven styles designers already know and use.

Curtains take customization even further. Through Amity Home's special order curtain program, designers can create panels tailored to the needs of the project with a **6 to 8 week lead time**. From the fabric and scale to the finished dimensions, the program offers the flexibility of a more custom approach without the complexity and lengthy timelines traditionally associated with custom window treatments.

The result is a resource designed around how designers actually work: immediate solutions when timing matters, expanded options when a project calls for something more specific, and complementary textile categories that make it possible to carry a vision throughout the room.

From the rug underfoot to the curtains framing the windows, Amity Home brings warmth, texture and personality to every layer.

We've got you covered. Floor to ceiling.
