KEY INTRODUCTION

NEW UMBRELLA CATEGORY

Our first-ever umbrella collection makes shade as beautiful as it is effortless. Imported from Italy, our umbrellas feature an easy-to-use pulley system and a walnut-finished aluminum pole for added durability. They pair perfectly with our three new umbrella tables.

KEY INTRODUCTION

NEW FABRIC, FRINGE & TRIM

More ways to make the outdoors your own. Our expanded assortment of performance fabrics is joined by fringe and trim—an all-new offering for Made Goods—bringing pattern, texture, and a playful finishing touch to pillows and cushions.

KEY INTRODUCTION

JORGENSEN

Jorgensen celebrates woven craftsmanship with a softly contoured silhouette and richly dimensional texture. Rustic faux banana leaf wraps each sculptural form, finished with an intricately braided edge that beautifully frames the top.

Available as a console, coffee table, and side table.

KEY INTRODUCTION

SEATING FROM PATIO TO GARDEN

A fresh perspective from every angle. Woven details, unexpected curves, and open silhouettes give each seat its own personality, bringing new ways to entertain.

KEY INTRODUCTION

A SEAT AT THE TABLE

From drinks in the garden to dinner under the stars, there are more ways to gather this season. New bar table silhouettes expand the assortment, while fresh finishes and larger proportions bring a new perspective to al fresco dining.

KEY MATERIAL

TUNDRA GREY CAST RESIN

Hand-swirled variations give the cast resin its one-of-a-kind depth and movement, shifting from soft, cloudy greys to luminous silvery tones as the light changes. The result is a finish that reveals something new from every angle.
