FOR IMMEDIATE RELEASE

MURAL SOURCES BY PAUL MONTGOMERY TO RELEASE
NEW PRODUCT LINE: "NATURA" WALLCOVERINGS

MURALS AND REPEAT PATTERNS ON GRASSCLOTH, PAPERWEAVE, AND
MORE

As always at the High Point Market, designers will be flocking to the show looking for new and exciting products. This fall, Mural Sources will be introducing their new product line called "*Natura*".

Natura is a collection of murals that combines the high quality digital printing process with organic wall covering substrates. *Natura* includes a variety of grass cloths, paper weaves, and raffia. By expanding beyond the standard papers into these alternate substrates, Mural Sources is multiplying the possibilities for fine art murals and repeat patterns.

The *Natura* collection includes an extensive set of new repeat patterns for side-walls. Taken from the Mural Sources library, these designs have been reimagined and applied to the natural fiber papers to create a synergy of sophistication. Each pattern comes in many styles and colors, such as block style and ombré.

The founder and creative force behind Mural Sources, Paul Montgomery, says, “We are excited to bring our new murals to the market to fulfill a rarely explored area of wall decoration.”

Mural Sources has been a boutique source for high-quality, sophisticated designer murals since 2015. Building on decades of design experience for hotels, clubs and luxury residences, Mural Sources has optimized styles from traditional Chinoiserie murals to elegant Euro-style panoramic scenes. These premium printed murals and wallpapers can transform any space into a timeless work of art.

For the opportunity to see these new murals first hand, visit booth #M7054 in the Mezzanine at The Suites at Market Square from October 13th to 17th. To learn more visit www.muralsources.com or call us at 1-540-337-6494
