FANS**

# HAIKU<sup>®</sup>

THE WORLD'S SMARTEST FAN JUST GOT BRIGHTER

Enjoy the perfect blend of form and function with the expertly crafted Haiku from Big Ass Fans. With premium features including automated SenseME™ technology, versatile control options, and available LED downlight and color-changing Chromatic Uplight, Haiku offers an unprecedented level of style, comfort, and control.

## ADVANCED TECHNOLOGY. SIMPLE LUXURY.

The latest generation of Haiku incorporates a range of technological improvements and added features making it the smart choice for cooling. See what's new to our flagship small diameter fan:

| **Brighter LED downlight** available featuring color temperature shifting

| **Bluetooth wall control compatibility** added to suite of control options

| **Dimmable uplight** add-on with color temperature shifting, RGB Chromatic Uplight, and **optional UV-C**

| **SenseME™ and smart controls** standard on covered outdoor models

**THE WORLD'S MOST  
ENERGY-EFFICIENT FAN**

**Most Efficient  
2022**

## SEE YOUR SPACE IN A BRAND NEW LIGHT

Haiku's upgraded LED downlight and Chromatic Uplight are now available together or separately, giving you greater power to personalize the look of your environment. Use the intuitive Big Ass Fans mobile app to control the 16 brightness settings and color temperature, as well as to activate dimmable RGB Chromatic Uplight functionality.

Looking to create even more comfortable spaces? Haiku Chromatic Uplight now offers seamlessly integrated UV-C technology.

## WORLD-CLASS AIRFLOW

Haiku delivers unrivaled comfort in a stylish package thanks to its premium construction and advanced technology.

- ▶ Durable, precision-balanced airfoils in either Moso bamboo or aircraft-grade aluminum are available in eight luxurious finishes and diameters of 52, 60, and 84 inches.
- ▶ SenseME™ technology offers automated modes, increased energy efficiency, and motion detection for all indoor and covered outdoor models.
- ▶ Haiku offers seven speed settings in addition to Whoosh, Timer, Sleep, and Fan Eco modes to ensure you get the airflow that's just right for you.
- ▶ Control options including bluetooth remote, wall controller, mobile app, and smart home integration through Google Home, Amazon Alexa, and more!
