

# KABOOM

An icon, developed in collaboration with Studio Roderick Vos.  
Specially made to make you happy for years to come.

## Here is the story

Kaboom makes a statement. Round, friendly, and full of character. Completely different from the slender chairs you're used to – and yet instantly familiar. It's as if it's appeared right out of your favorite comic book! Thanks to its rounded shape, Kaboom is comfortable, but also very sturdy. And that strong posture has a function. This clever design is rotationally molded in one piece.

The thicker the hollow forms, the firmer the chair. Kaboom is indestructible!

## Strong craftsmanship

Comfort always comes first. You can easily sit on a Kaboom while you eat, drink or talk all night. The chair is available in a variety of sophisticated colors that combine perfectly with each other and with the rest of the Fatboy collection.

Every chair is

carefully rotationally molded in the Netherlands, in small batches. As each piece comes out of the mold, it announces its presence: kaboom!

## Every house is a home

Kaboom doesn't like to be pigeonholed. A dining chair, garden chair, or iconic design statement? Kaboom's got it all. You can even leave it outside all year round. Think of Kaboom as a lifelong friend who's always there for you.

## About Studio Roderick Vos

Studio Roderick Vos is owned by Roderick and Claire Vos. The designer duo creates furniture, lamps, and accessories that are bold and surprising. Most designs originate from a unique industrial insight. Roderick: "When I'm designing, I want to have fun. I'm always looking to push boundaries. And that's also how Fatboy works. We both make unusual products for everyday use that make you happy. In that respect, working with Fatboy feels like coming home."
