This year, as we 'Party like it's 1962,' we take a look back at the styles, colors, and shapes of the iconic 60's era. We pulled inspiration from icons such as Jackie Kennedy Onassis, Audrey Hepburn, Cher as well others for fabric and style selections.

Each room was designed and inspired with the past in mind and how the future has been shaped by it.

As the gray movement that has had a hold on the industry for the last decade starts to shift, its allowing warm creams and browns to slide into place.

Our fabric offerings for F/22 are right on trend to allow you to welcome the warm hues and character back into your homes and businesses.
