

NETORIOUS

With Netorious, created in collaboration with Chris Kabel, Fatboy introduces a completely new way of relaxing.

He's here: Netorious. The futuristic lounge furniture and design statement all in one. Expressive in size and still subtle, thanks to its transparent look. Nestle down in any way you like. Whether you're sitting up, lying crosswise, or curling up into a ball, Netorious takes relaxing to an even more stress-free level. You can see the ground beneath you through the net, so it feels like you're floating. Fill Netorious with cushions, blankets, and books, and set off for your own planet of comfort and peace.

Strong and light

Netorious combines maximum comfort with minimum use of materials. That's what makes him big and smart, sturdy and soft, light and super strong. His funny legs stand firmly on any surface. The net is blindly concealed in the aluminum frame, which makes the construction extra strong. Those ties between the net and the legs? You can tighten up the Netorious with them. It's that simple.

Netorious Pillow & Cover

Netorious is ready for you all day long. It's easy to lift up and move it to wherever your mood takes you. For even more comfort, there's the Netorious Pillow, a quilted cushion that flows seamlessly into the design. And no worries if you spill something on the cushion – the sturdy fabric is water- and dirt-resistant. With the Netorious Cover, made from recycled PET bottles, you can protect Netorious from any type of weather. He'll stay perfect for years to come.

About Chris Kabel

Chris Kabel creates smart furniture in which ingenious technical constructions lead to surprising design. Chris: "Fatboy has an open mind about things that don't exist yet and immediately believed in my wild ideas. It was fantastic to work together and investigate how we could translate these into the very best product. This is how we came up with an entirely new interpretation of The Good Life."

Nice to know!

- For outdoor use.
- Available in anthracite.
- Material frame: powder coated aluminum.
- Material net: polyester.
- Dimensions: 74.6 x 60.6 x 35 inches
- Weight: 41 lbs.
