**HIGH POINT, NC, Oct. 14, 2023** – Obeetee, a world leader in hand-woven carpets since 1920, is back at the High Point Furniture Market this fall in a big way. In addition to its expansive rug program, which includes hand-knotted, hand-tufted, power-loomed and indoor/outdoor designs, the 103-year-old company is introducing woven pillows as well as debuting its Manor & Mews furniture manufacturing capabilities in the U.S. in IHFC, Hamilton Wing, #H-312.

Established in 2015, Manor & Mews offers world-class manufacturing, fashion-forward, quality product and sustainable, socially responsible practices. In eight short years they have assembled a global management team and have built three state-of-the-art manufacturing facilities outside of Jaipur, India, including one that is 325,000-square feet and the first factory of its kind in India. A fourth manufacturing facility is opening in 2025.

Unlike most other manufacturers, they also have their own wood seasoning plant. The enterprise is already working with a host of major retailers and is ideally positioned to provide high-volume, mass-produced product out of the highest quality natural materials to a growing market, as well as serving designers with custom product.

This market Manor & Mews is introducing a cohesive collection of 41 pieces that highlight its emphasis on on-trend design and its expertise in mixed materials produced with the latest technology and most advanced German woodworking machines. Designs showcase wood with leather, metal, jute and cane as well as fine relief work, decorative carving, inlays of hand-woven cotton cord and more. From upholstered beds and sofas to night tables, dining sets and side boards, the collection has wide appeal.
