

New "design destination" at HPMKT

Wajnert Furniture is a new furniture brand at HPMKT and announces the opening of its new stand in the C&D building on the 5th floor (stand 5h). The company, known for its modern, innovative sofas with exceptional comfort, is one of the leading furniture manufacturers in Poland. 'Comfort is here' is the company's motto and, at the same time, its commitment to creating products that provide the user with the maximum level of comfort while maintaining a modern and timeless design.

The brand offers its customers a unique collection of upholstered furniture distinguished by European design and a package of innovative functionalities.

Exceptional comfort in a modern way

HPMKT is the most important, vibrant design center in the US. Wajnert wants to inspire all visitors and draw attention to new possibilities and a new way of using lounge furniture, tailored to the modern user.

Bartlomiej Wajnert, co-owner of the company, said: "In our new stand, we have tried to create the best possible conditions for presenting exceptional, unique products and meeting and testing European solutions with the opinion of American customers. For almost 40 years we have specialized in the production and sale of upholstered furniture, modular collections and lounge furniture enhanced with additional features. We produce furniture with the comfort of the human body in mind, reducing fatigue by offering the best possible fit, support and technological solutions that can further enhance this comfort. Our furniture is designed with the modern user in mind, so that it fully meets their needs. They define how we interact with the space around us, how we move through our daily lives. But our commitment to comfort doesn't end with sofas, armchairs and corners. We are committed to making the world a more comfortable place. We want to provide products that can be called fully "caring" - caring for people and our Planet. Furniture made of safe materials and using eco-friendly, recycled fillings and fabrics are proof of our concern for an eco-friendly lifestyle."

Even more personalization and comfort options

Among the furniture presented at the booth was the MISTY modular sofa and corner system, one of the unique designs recommended for those looking for a modern corner with innovative features and additional personalization options. This corner sofa combines a modular element with an electrically reclining seat. The possibilities for personalizing the furniture are vast: from changing the size, configuration, filling, backrest, seat design, to the fabric or shape of the legs. You can also opt for additional amenities, such as a charger or audio system.

Na stoisku Wajnert można obejrzeć z bliska najnowsze kolekcje, sprawdzić innowacje technologiczne i przekonać się, jak jakość, design i komfort łączą się w idealnej harmonii.
