## Bruce Andrews Design Has Sights Set On Fall 2018 High Point Market

Augusta, GA. September 2018

Bruce Andrews Design, an international renown maker of sophisticated interior furniture, is introducing a series of standalone pieces and collections at High Point's Fall Market 2018, designed to renovate and revitalize your home with unique styles by master craftsmen.

"I design with sustainability in mind, I won't compromise great craftsmanship," said Bruce Andrews, President of Augusta, Georgia-based company. "First impressions are everything. When a customer sits in my chair for the first time they're going to make a choice."

During the Fall 2018 High Point Market, Bruce Andrews Design is striving to feed on the continued investment in unique designs that command your attention. The company's proficiency in American-made furnishings is brought to life by its four inspiring collections. One of which, the Esmé collection, whose name comes from French origin meaning "to love", features a wide range of exquisitely refined interior decor including:

### [The Pavel Sofa](#)

Generously proportioned, with a timeless, sensuous shape inspired by water-worn stones of the California coast, this

sectional delights in confirming the intrinsic beauty of form following function.

### [The Piaf Sofa](#)

The Sweeping lines of this Piaf sofa and its beauty call to mind deco and sensuous forms of the 1930's. A continuous curved back with diamond tufting dips at the center to rise at each end. The Piaf Sofa features a choice of a pleated or plain smooth back, welt trim, and a plinth.

### [The Aurora Chair](#)

A favorite frame for our most talented pattern makers, the Aurora chair's sleek, luxurious lines have that rare ability to complement both traditional and contemporary decors.

Bruce Andrews Design will be located at 200 Hamilton building, Suite 100  
October 11th - 16th. Find us next to Jonathan Charles.
