

## LAZY DAYS IN YOUR LOUNGE AROUND SOFA FROM UIMAGE

Lounge Around is a multifunctional, flexible sofa designed to be the centerpiece of your living room. After a busy day it's the perfect place to lie back, relax and recharge. Developed with comfort in mind, Lounge Around is a sofa to linger on, whether sitting alone, with friends or lying down fully stretched out. Clean lines, unfussy design and high-quality materials give Lounge Around a light Nordic expression. The sofa's balanced and attractive look makes it a standout piece in any interior setting that will instantly grab the attention of visitors.

A 3-person sofa and guest bed at the same time, its simple form and narrow depth make it ideal for smaller apartments and living spaces. Despite its minimal design, special combinations of foam layers in the seat cushions mean Lounge Around is very comfortable and just right as your base at home.

Lounge Around is available with additional features including a light stand, magazine rack, side pillow and small side table. Cushions with thin trays on the reverse side are also available, allowing you to sit opposite a guest, keeping the tray in the middle as an extra table.

Soren Ravn Christensen, Designer: "Lounge Around shows the beauty of Danish design in its simplicity and comfort. It's the base in your home where you can do all sorts of different things, a real centerpiece.

You can have friends over, you can sleep in it, you can lie down in perfect positions as a chaise longue, spend evenings watching TV or as a reading couch. It has lots extra features that are just right for urban living."
