High Point, NC –

Leading European Lifestyle Home Furnishings brand Dôme Deco, which is now being distributed in the U.S., is an international B2B interior design company that designs and distributes total interior concepts. Creating exclusive interior settings with a wide range of high-end quality design products with a cosmopolitan identity. The brand offers affordable luxury to interior designers, architects, retailers, hoteliers, co-working spaces, real estate projects and the likes on a worldwide level.

The producer and designer of B2B interior collections will launch their Spring/Summer 2021 Collection, inspired by the theme “Revitalise”. With a presentation of Shades of Khaki Green, a natural color with an urban attitude and Shades of Sienna Red, a color referring to nature with its earthy richness and warm red touch.

“The essence of the theme is using deep colors connected with nature. Organic shapes, sophisticated materials. Urban vibe meets natural touch. We translated this into more natural and raw elements, deep collection colors and an interesting, worldly product combination, ranging from Polish glassware to Indonesian craftsmanship and Italian fabrics from Carlucci.”, says U.S. Sales Manager Scott McKearn

Dôme Deco has put a few designers in the spotlight with whom it entered into a collaboration. Dutch award-winning designer René Holten is known for his highly qualitative products with an elegant, timeless and innovative character. The exact match with the Dôme Deco identity.

“The absence of back cushions and the large armrests are the main characteristics of the sleek and contemporary Lugano Sofa designed by Holten. Its refined details and sophisticated appearance create the perfect fit for any living space, hotel lobby or general lounge area.”, says McKearn.

Dôme Deco will also introduce the Java Shelf in collaboration with Paul Apers. A flexible shelving system that can be mounted in several ways and is an eye-catcher in any living space.

Based on Paul Alpers extensive and in-depth knowledge of the furniture industry, he set out to develop a modular shelving system that serves a multitude of applications. Be it a single unit in a private study, a combination of a dining room setting or an even more elaborate presentation for use in a hotel lobby, the Java shelf will cater to a Designer's specific needs. As it is modular, it comes in small packages, making it easy to transport and handle.

To be even more project-oriented, the brand will also be launching a new fabric fan with the trend colors of the season. "It is an indication of intriguing fabric combinations, possible to take an interior project to a higher level", says Dome Deco-US Owner Sangeeta Gupta.
